

**We are in the process of switching to a new registration platform. It has been very confusing for quite a few players. [CLICK HERE](#) to register now. All players will need to create a new profile.** Tapping on the **click here** will get you started. **You can also click on REGISTRATION** at the top of the page. Click on **Register Now** on the righthand side of the page. Either way, a window will appear that allows you to choose what type of player card you want to purchase. Click on your choice and the next window that appears will have Registration in the upper righthand portion of the page. Click on that and the next window will want you to select your season and team on the left. The season defaults to 2021. Select your team – WA ADULT PLAYER REGISTRATION. This is not actually a team but will identify you as a player. On the right you will have the option to create a new account because this is a new system. You must click on **Create an Account**, at the bottom of the page. Please ignore the boxes for username and password. You are starting over in a new system. The next page asks for all your information and then to create a username and password. If you have children playing in WSYSA that are also registered through their youth team, you must create a different username for your account. When you create a new password, keep in mind it cannot be less than 7 digits and not more than 8 digits. It must be a combination of numbers and letters with one capital letter. You will need to add yourself to the team. On the following page you will choose player. Once you finish those steps you just continue through the remainder of the registration and payment process including uploading a photo. It must be a Jpeg or PDF. After all of that, you should be good to go! It will take a few days to print and mail your player card. If you need it immediately, download your receipts or email [office@wssa.org](mailto:office@wssa.org) for help. Good Luck!
